ANNOUNCEMENT

I have devoted a number of years to the breeding and sale of pure bred cattle, giving no particular preference to any breed, but accepting the theories as outlined by adherents of the various breeds, that each had its strong features over the others, in its claim for recognition at the hands of American cattle men. After these years of experience with and much observation concerning breeds, viewing them I believe wholly from an impartial standpoint, I have reached the conclusion that the "double decker", the combination beef and milk cow—the cow that will produce a good type of beef calf, properly maintain it, and still supply milk for family or dairy use—is found in profusion only in the Shorthorn breed.

While recently looking through the herd of Miles M. Madden & Son, at Kingman, Ind., I observed that their herd contained a very large proportion of females of this type, and negotiations were entered into whereby I became the owner of the Springdale Herd, and which I will disperse at Mt. Pulaski, Ill., on Tuesday, September 1, 1914. The herd is straight Scotch, highly bred, and while it represents the best beef type of Aberdeenshire, it has the milking qualities of the English Shorthorns. Nothing but the best and best bred bulls procurable have been used in the herd by the Messrs. Madden, and the animals catalogued are all bred from three cows belonging to such famous Scotch families as the Brawith Bud, Nonpareil and Mina and such groups as can be shown from the latter two, cannot, we believe, be excelled anywhere. The herd is headed by Village Lord, a bull combining the blood of Imp. Villager and Imp. Whitehall Sultan, the two greatest sires imported to America within recent years. Only a few calves by this grand young sire are catalogued, but there are numerous good ones that will be sold at foot with dams, and all females of the herd are in calf to him. A bull and two junior and two senior heifer calves have been sold to Mr. W. W. Washburn, Crawfordsville, Ind., a gentleman who has recently bought some of the best and highest priced Shorthorns in this country. These will appear at the International and probably other shows this fall. They are the get of Village Lord and out of cows herein catalogued. The Madden herd has often been represented among the prize winners at the International Exposition.

I am also including twelve high-class females of the same type quality and Scotch breeding from the herd of Mr. E. A. Wallace, Dallas City, Ill. Also two young bulls and their sire, the two-year-old stock bull, Village Champion. The families represented are Village Bud, Secret, Acanthus and Victoria, among the most famous of Scotch.

These cattle are good to look upon; they are bred along fashionable lines, and are of the most useful type known. Forty-one of the forty-three head are from the best Scotch families. I invite Shorthorn breeders, cattle men and farmers generally to attend this dispersion.

Mt. Pulaski, Ill., Aug. 14, 1914.

W. C. McGAVOCK.

VILLAGE LORD represents in his two top crosses two of the greatest bulls imported to America within the past twenty years, viz: Villager and Whitehall Sultan. His second dam, Imp. Lustre 41st, one of the good breeding cows brought to America, was by the celebrated Mirabeau. As might be expected from such breeding, Village Lord at two years old has begun siring high-class show cattle. In addition to the good ones included in this dispersion, a young herd sired by him will appear at leading shows this year, exhibited by Mr. W. W. Washburn, of Crawfordsville, Ind. Individually, Village Lord is possessed of beautiful finish and character, model head and horn, superb smoothness of shoulder, grand heart girth, and carries his excellence throughout evenly and smoothly, bequeathing it all to his get in marvelous manner. The Messrs. Madden permitted the bull to run in pasture with cows during June and part of July without feed, and as a consequence he will not be sold in a high condition of flesh, but his grand quality and finish, wonderful pedigree and ability to sire calves of show-yard character must appeal to all, and breeders generally will recognize that they are called upon to appraise one of the most valuable young bulls of the breed.

IMP. VILLAGER, the leading and popular sire in service in America today, whose get are winning the prizes and whose sons are heading the best herds with remarkable results. He was got by Village Beau, a Duthie bred bull by the famous Merry Morning and out of the celebrated cow, Rosy Cloud.

IMP. WHITE HALL SULTAN, the greatest sire imported to America, whose impress on the Shorthorns of this country is simply marvelous and wonderful. There are few animals of note as breeders or of show yard merit that do not carry the blood of this bull. His sons and grandsons are breeding on and perpetuating his fame in a remarkable manner. He was got by Bapton Sultan 163570 out of Imp. Bapton Pearl by Count Lavender 132575.

LADY NONPAREIL has roan bull calf at foot calved August 6 to the service of Village Lord, a great young breeding bull that represents a cross of the two most famous bulls ever imported to America, viz: Villager and Whitehall Sultan. She is a superior exemplification of the "double decker," carrying a thick, wide, deep body on the shortest of legs, with beautiful head and finish and wonderful udder and milking capacity. She is a grand breeding cow, and her produce in the herd has been eagerly sought after at good strong prices. Mr. W. W. Washburn, of Crawfordsville, Ind., recently purchased her daughter, Lady Diamond, and she will likely be seen at the International Exposition and other leading shows this fall.

CAMDEN ARCHER 224628, got by Imp. Collynie Archer out of Queen of Camden 4th by Lord Lovell's Heir 2d, tracing to Imp. Minerva by Luminary 52586. Collynie Archer's pedigree is similar to that of Marengo, the champion bull of Great Britain, both coming from the celebrated Marr Missie tribe that has produced many of the most famous animals of the breed.

MULBERRY CUP 179816, a very short legged, thick fleshed prize winning, show and breeding bull, was got by Orange Cup out of Mulberry of Homewood 2d by Scottish King of Homewood 126384, tracing to Imp. Brambleberry by Perfection 61408.

NONPAREIL PEARL was served June 6, by Village Lord, and is one of the grandest breeding matrons of the breed, coming of the famous Cruickshank Nonpareil family, esteemed and revered wherever Shorthorns are bred. She has a bull calf and five daughters in this auction that attest her superiority as a producer, and six such outstanding animals it would indeed be difficult to find the produce of any cow. She produces alike bulls and females of excellent finish and quality with thickness of body and shortness of leg, and the value of such a breeding cow can scarcely be estimated, and only in dispersion sales can they be obtained.

MULBERRY CUP 179816, a very short legged, thick fleshed, prize winning show and breeding bull, was got by Orange Cup 125780 out of Mulberry of Homewood 2d by Scottish King of Homewood 126384, tracing to Imp. Brambleberry by Perfection 61408.

She has a beautiful roan bull calf at foot sired by Village Lord that should make a herd header of the most desirable type. She comes of the celebrated Brawith Bud family and represents every requirement of a great breeding cow. Her yearling daughter will be found catalogued.

BEAUTY OF CANADA has red heifer calf at foot sired by Village Lord, a son of Imp. Villager and grandson of Imp. Whitehall Sultan. History indeed approves the judgment of Mr. Edwards, who wrote to Mr. Madden concerning this cow: "You are indeed fortunate to have a cow sired by Village Champion. We firmly believe that he was the best Shorthorn sire on the Continent of America or at least the equal of any." If Mr. Edwards could see the great string of superior cattle descended from this daughter of this bull included in this dispersion, he would have evidence of the manner in which the blood of Village Champion is breeding on. Beauty of Canada is one of the outstanding daughters of this bull, and her four daughters, Beauty of Springdale, Canada Beauty, Canada's Diamond and Village Beauty are massive, thick, showy breeding cows, splendid milkers and great mothers are tributes to her worth as a breeder, and at eleven years old she is still a valuable breeding proposition.

SCOTTISH PRIDE 128543, got by the celebrated Pride of Morning out of Imp. Missie 142d by the Sittyton Spicy bull, Sea King 61769. The Missie family has produced many of the most famous Shorthorns in Scotland, including Marengo, the great English champion, Marquis of Zenda and Missie 153d. No better bred bull than Scottish Pride ever crossed the Atlantic, and as a sire of show cattle he ranks with the greatest sires of the breed. The celebrated show and breeding bull, Superbus, and the noted show cow, Duchess of Lancaster 13th, as well as several other champions, were sired by him.

VILLAGE CHAMPION is a bull of grand scale, substance and conformation that is proving a high-class sire. He has only two calves catalogued for this sale, and they are both good ones, beautiful roan in color and of grand type, conformation and quality. The calves to be sold at foot with dams and sired by this bull are all roans, and absolutely high-class. To anyone wanting to breed roan cattle, this bull should prove a treasure, as he has sired no other color, and his calves on sale day will make quite a showing. With his breeding, individuality and demonstrated ability as a sire, at two years old, he should fall into good, appreciative hands.

PRIDE OF LINWOOD 306027 was bred by I. M. Forbes & Son, and said by them to be the best bull they ever bred. He is a very low, thick, smooth bull, with extraordinary back and loin. He was sired by the Victoria bull, Victor Linwood 268249 out of New Year's Queen by the International Exposition first prize bull, Imp. Cock Robin.
